Commercial Building Permit Requirements

A commercial building permit is required for construction on all properties within the unincorporated areas of the Town of North Hempstead. The **Online Application** must be completed in its entirety and include a clear statement as to the scope of work proposed. Surveys, site plans, insurances and related documents **are required at application submission**.

If your project includes the installation, replacement, and/or removal of any or all of the following: plumbing fixtures; gas or oil fired appliances; gas piping; sewer or septic systems; air conditioning or heating (HVAC) units or duct work; drainage/dry wells; sewer/septic infrastructure; water infrastructure, and or; fire sprinkler systems you will be required to complete one or more associated applications. The notification you receive upon submission of this Commercial Building Permit will direct you to submit the required associated permit(s). If your project includes the installation of Fire Alarms you must submit two copies of plans that indicate the proposed work that are signed and sealed by a New York State-Licensed Design professional and submit a copy of the filing receipt for the application that was submitted to the Nassau County Fire Marshal.

If your project includes any of the following: New work or alteration to a driveway or walkway approaching the sidewalk forward of the front property line within the public right-of-way (**R.O.W.**); new sidewalk; curbing; driveway apron; end-of driveway trench drain; and/or excavation in the roadway for the connection of new or repair of existing utilities; if the property fronts a Town, County or State owned road you must also obtain a *Road Opening Permit* from either the Town of North Hempstead Highway Department, Nassau County DPW, Incorporated Village or New York State DOT respectively. The notification you receive upon submission of this Building Permit will direct you to submit the required permit.

You do not need a permit for a dumpster if that dumpster is placed on your property. If, however the dumpster is placed on a public roadway you will need to obtain a dumpster permit from the Highway Department. If the property fronts a *Nassau County, New York State or Incorporated Village* roadway, permits for dumpster placement in the **R.O.W.** would need to be obtained from them.

If this application is to maintain (legalize) work which was performed without the benefit of a building permit a Certification Letter from a New York State-Licensed Design professional and an Electrical Inspection Certificate from an approved agency must also be submitted. A sample certification letter can be found [here](#).

If your scope of work does not conform to the Town Code, a Notice of Disapproval will be issued by either the Permit Division or Plan Examination Division. The Disapproval can then be used to file an appeal for a variance from the Board of Zoning Appeals which must be submitted **within 60 days** of the issuance of the Notice of Disapproval. All appeals for variances are heard at public meetings of the Board.

Upon initial review of your application, you will receive an **Owners Authorization Form**. This form must be signed by the **owner(s) of the property**, notarized and returned to us prior to the issuance of your permit.

The initial application fee for Commercial Building Permits where the total cost of construction of the project **exceeds \$11,000.00** is **\$350.00**. The initial application fee for permits where total cost of construction is **less than \$11,000.00** is **\$200.00** plus **\$14.00** per *thousand dollars* cost of construction. Fees are non-refundable and are **due upon submission of your application**. An exact **permit** fee will be calculated prior to permit issuance. For **"Maintain"** applications, used to legalize work done without the benefit of a permit, prior to the issuance of a permit and for work done illegally, a fee of two **(2) times the normal fee** will be charged. Upon approval you will receive an email outlining the total due. Payment must be made online. We accept all major credit cards and E-Checks. Credit card payments incur a service/convenience fee of 2.95%. Payments by E-check incur a fee of \$1.75 per transaction. The Town of North Hempstead does not profit from this fee.

Below is the list of documents required to be submitted with your application. Documents with a gray checkbox may not be required for all projects. Please consult your design professional or [contact us](#) if you have further questions.

Commercial Building Permit Requirements

Commercial Plan Review Checklist Guide

In addition to the above requirements your design professional must complete and submit a [Commercial Plan Review Checklist](#). The list below outlines the most common omissions found on Commercial Building Applications. Use it as a guide when completing the check list.

<input checked="" type="checkbox"/>	<p>A Historic folder review needs to be completed. The following items should be addressed:</p> <ul style="list-style-type: none"> • Open permits requiring renewal or issuance of Certificates. • Site plan indicates fencing that does not have permits – gates set back 18’. • Site plan indicates structures not permitted (sheds, trailers). • BZA Decisions requiring renewal. • Prior BZA Decisions have been reviewed. Are all Conditions required by the BZA in compliance? (Parking layout, landscaping, fencing, buffer zones, garbage lockers, etc.). <p>(NOTE: The historic review is limited to the space where the proposed work is contemplated. If the work area is a tenant space located a large office building or shopping center a historic review of the entire building or property is not required.)</p>
<input checked="" type="checkbox"/>	<p>The following information must be provided on the FIRST page of the plan set, this information is required for the preparations and issuance of the final certificates:</p> <ul style="list-style-type: none"> • State the construction classification of the building as per §602 of the 2020 B.C. of N.Y.S. • State the occupancy classification of the tenant space as per §302 of the 2020 B.C. of N.Y.S. • State if the building has a fire sprinkler system. If so, is it required by code? • State if the building has a fire alarm and type (manual or automatic). If so, is it required by code?
<input checked="" type="checkbox"/>	<p>If there is a change in tenancy you must indicate on the plans whether the application is a Change of Occupancy Classification OR Change of USE (NO Change of Classification or Group) per §1001.2.1 & §1001.2.2 of the 2020 Existing Building Code of New York State.</p>
<input checked="" type="checkbox"/>	<p>For Alteration applications you must indicate the Alteration Level (Level 1, 2, 3 and/or Change of Occupancy, etc.) as specified in Chapter 6 of the 2020 E.B.C. of N.Y.S.</p>
<input checked="" type="checkbox"/>	<p>If the application involves a Level 2 Alteration or greater you must provide Occupant Load calculations based on §1004 of the 2020 B.C. of N.Y.S.</p>
<input checked="" type="checkbox"/>	<p>Plans must specifically state the nature of the business in space, not just “retail” (E.g., Clothing store, real estate office, deli). If the name of the business is known, please provide on plans.</p>
<input checked="" type="checkbox"/>	<p>The Site Plan must indicate the location of the work being performed in the building/tenant space.</p>
<input checked="" type="checkbox"/>	<p>A Parking Layout must be provided indicating all spaces with their typical dimension and H.C. Accessible parking.</p>

Commercial Building Permit Requirements

<input checked="" type="checkbox"/>	Parking Calculations must be provided that indicate the previous tenant requirements and indicate new tenant requirements (calculations MUST include parking requirement <i>for all tenants in the entire building</i>).
<input checked="" type="checkbox"/>	Property Surveys must be submitted that show all current existing site conditions.
<input checked="" type="checkbox"/>	Plans must indicate the location of Carbon Monoxide Alarms/Detectors in accordance with §915 of the 200 Fire Code of New York State.
<input checked="" type="checkbox"/>	If the Plans indicate the relocation of existing and/or the installation of new Fire Sprinkler heads filing a Fire Sprinkler Permit application (including plans) must be filed. In addition, and a Fire Sprinkler application must be filed with the Nassau County Fire Marshal's office.
<input checked="" type="checkbox"/>	A N.C.F.M. filing receipt or T.N.H. N.C.F.M. Filing Affidavit or T.N.H. N.C.F.M. Owner Filing Affidavit is required for a Fire Alarm Application .
<input checked="" type="checkbox"/>	An N.C.F.M. filing receipt or T.N.H. N.C.F.M. Filing Affidavit or T.N.H. N.C.F.M. Owner Filing Affidavit for is required for a Fire Sprinkler Permit Application . If the plans indicate the modification of an existing and/or the installation of a new Fire Alarm System a Fire Alarm Permit application must be filed with the N.C.F.M.
<input checked="" type="checkbox"/>	Plans must indicate the size, type & location of all required Portable Fire Extinguishers in compliance with §906 of the 2020 B.C. of N.Y.S.
<input checked="" type="checkbox"/>	Plans must demonstrate compliance with the means of egress requirements of Chapter 10 of the 2020 B.C. of N.Y.S. Provide a life safety plan indicating the egress route from the most remote point to the protected exit, demonstrating compliance with the maximum distance for a common path of egress along with total maximum distance to a protected exit.
<input checked="" type="checkbox"/>	A Reflected Ceiling Plan indicating all ceiling heights along with all ceiling mounted objects, both existing and new (existing egress lighting, HVAC registers, exit and emergency lighting, sprinkler heads, etc.) must be provided. Lighting, HVAC diffusers, sprinkler heads and other ceiling mounted objects should be indicated as follows: N – New, R – Relocated or E – Existing.
<input checked="" type="checkbox"/>	Plans must demonstrate compliance with the lighting requirements of the code, including space lighting per §1204 of the 2020 B.C. of N.Y.S., egress lighting including exterior discharge lighting per section 1008.2.3, emergency egress illumination per §1008.3, and exit signage per §1013.
<input checked="" type="checkbox"/>	Plans must demonstrate compliance with the accessibility requirements of Chapter 11 and ANSI A117.1-2009. COMcheck or MECcheck or other means of demonstrating compliance with the energy efficiency requirements of Chapter 13 and the 2020 Energy Conservation Code of N.Y.S.
<input checked="" type="checkbox"/>	If a Statement of Special Inspections has been provided by the Design Professional, all content required by §1704.3 of the 2020 B.C. of N.Y.S. must be included and the special inspectors name and qualifications demonstrating the inspector's competence to perform inspections as per §1704.2.1 must also be provided.
