Gas Permit Application Requirements

A Gas permit is required for the installation, modification or removal of existing gas appliances, gas hot-water heaters, gas-fired burners, gas-fired generators, gas storage tanks and/or gas piping. If an addition, alteration, renovation, or any structural work is being performed a **Building Permit** would also be required. Upon completion of the Building Permit Application, you will be directed to apply for the necessary associated permits.

The **Application** must be completed in its entirety. If you are submitting a stand-alone application digital copies of plans, insurances and related documents **are required at submission and must be uploaded with the application.**

Upon initial review of your application, you will receive an **Owners Authorization Form** and your contractor will receive a **Plumbing Contractor's Affidavit Form**. The Owners Authorization must be signed by the **owner(s) of the property** and the Contractor's Affidavit requires your **licensed plumber's signature**. Both forms must also be notarized and returned to us prior to the issuance of your permit. A Contractor's Affidavit is **not** required for a permit to maintain work completed without the benefit of a permit.

The initial application fees for Residential Gas Permits are as follows:

Unit Installation: **\$50.00**

Piping: **\$64.00**

The initial application fees for Commercial Gas Permits are as follows:

Unit Installation: **\$100.00**

Piping: **\$114.00**

Initial application fees are non-refundable and are **due upon submission of your application**. An exact application fee will be calculated prior to permit issuance. A fee of two (2) times the normal fee will be charged for maintaining work done without a permit, prior to the issuance of a permit and for work done illegally. Upon approval you will receive an email outlining the total due. Payment must be made online. We accept all major credit cards and E-Checks. Credit card payments incur a service/convenience fee of 2.95%. Payments by E-check incur a fee of \$1.75 per transaction. The Town of North Hempstead does not profit from this fee.

Gas Permit Application Requirements

Below is the list of documents required to be submitted with your application. Documents with a gray checkbox may not be required for all projects. Please consult your design professional or [contact us](#) if you have further questions.

<input checked="" type="checkbox"/>	<p>Property Survey - Property Surveys are required for all applications per Section 2-9.G of the Town Code. Surveys should....</p> <ul style="list-style-type: none"> • ...be complete, legible, full size and to scale. • ...show all existing conditions on and above the ground. <p>A Survey that includes setbacks is required for maintaining a generator installation completed without a permit.</p>
<input checked="" type="checkbox"/>	<p>Site Plans – A Site plan showing location and size of any outside units and distances from property lines is required for generators. If your project requires the abandonment or removal of an oil tank, your site plan must indicate the location of the abandoned tanks.</p>
<input checked="" type="checkbox"/>	<p>Gas Piping Riser Diagram - A Gas Piping riser diagram is required. Diagram should include size of pipes and linear feet of piping.</p>
<input checked="" type="checkbox"/>	<p>Nassau County Health Department Tank Removal or Abandonment Verification Letter - The abandonment or removal of an Oil Tank is regulated by Article X of the Nassau County Public Health Ordinance - All abandonments or removals must be performed in accordance with this regulation and proper notification must be made to Nassau County before beginning any work. If removing or abandoning an oil tank you must provide the tank removal or abandonment verifications necessary for your individual case. If you have questions or to schedule a removal or abandonment inspection please visit the Nassau County Department of Health Small Petroleum Tank Closure Inspection Scheduling System page.</p>
