Sprinkler Permit Application Requirements

A Sprinkler permit is required for the installation of a new, modification of an existing or removal of a Fire Sprinkler system. If an addition, alteration, renovation, or any structural work is being performed a **Building Permit** would also be required. Upon completion of the Building Permit Application, you will be directed to apply for the necessary associated permits.

The **Application** must be completed in its entirety. If you are submitting a stand-alone application digital copies of plans, insurances and related documents **are required at submission and must be uploaded with the application.**

Upon initial review of your application, you will receive an **Owners Authorization Form** and your contractor will receive a **Contractor's Affidavit Form**. The Owners Authorization must be signed by the **owner(s) of the property** and the Contractor's Affidavit requires your **Licensed Sprinkler Contractor's signature**. Both forms must also be notarized and returned to us prior to the issuance of your permit. A Contractor's Affidavit is **not** required for a permit to maintain work completed without the benefit of a permit.

The initial application fee for a Residential Sprinkler Permit is **\$50.00**. The initial application fee for a Commercial Sprinkler Permit is **\$100.00**. Fees are non-refundable and are **due upon submission of your application**. An exact application fee will be calculated prior to permit issuance. A fee of two (2) times the normal fee will be charged for maintaining work done without a permit, prior to the issuance of a permit and for work done illegally. Upon approval you will receive an email outlining the total due. Payment must be made online. We accept all major credit cards and E-Checks. Credit card payments incur a service/convenience fee of 2.95%. Payments by E-check incur a fee of \$1.75 per transaction. The Town of North Hempstead does not profit from this fee.
